Cycling Governance in Hungary
What or who is the key for success?

Miklós Berencsi
Cycling Coordination Department
miklos.berencsi@nfm.gov.hu

Current situation

- cycling is popular and has a long tradition
- developing infrastructure
- 300 million EUR investment in cycling
- active and strong advocacy groups

Challenges in cycling governance

underrepresented mode of transport

lack of ownership and coordination

lack of information exchange and cooperation

lack of high level commitment

High level representation of cycling

Government commissioner

boost cycling

lobbying

direct contact to ministers and decision makers

provide sustainable and predictable funding

publicity

New structure of governance

separate cycling coordination department

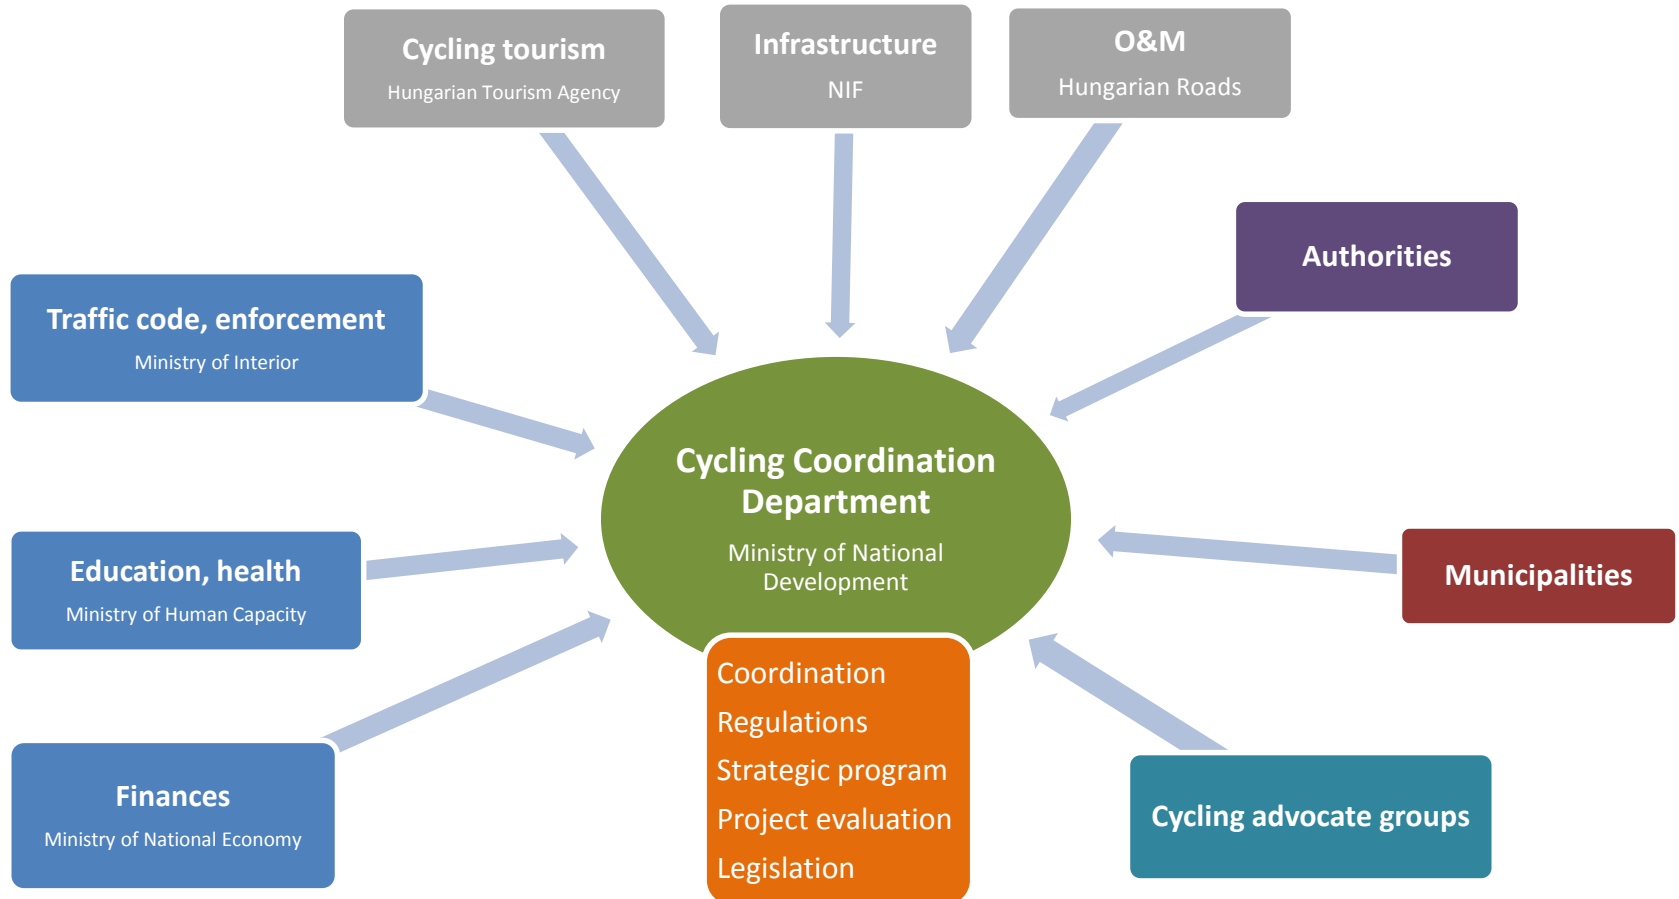

representation of cycling in all sectors and decisions

better cooperation, coordination and information exchange

informal network of cycling experts in all relevant bodies

New structure of governance

Future tasks

fully integrate cycling into all relevant sectors

establish national cycling forum

cycling program 2017-2027 approved by government

EuroVelo coordination centre

maintain momentum without commissioner
